In 2091, Victor and Maria created Adam, the world's first biological supercomputer. They dreamed of changing the world.

Now it's 2101. Adam's running a mining asteroid. Maria's in a coma. Victor's dreams are in tatters.

Living in the pollution-shrouded city of Missoula, Montana, scrambling to find the money to pay his wife's hospital bills, Victor doesn't think his life could get any worse. But then he's forced to return to the asteroid...

And when that mission becomes a desperate fight for survival amid the dark tunnels of the abandoned mine, he must finally confront the terrifying consequences of his past.
